

# Space Elf Catwalks assembly

## Stairs

1. After removing all pieces from the sheet with a hobby/utility blade, attach the the base plates onto the pegs on the stair profile boards.

2. Then glue down each of the stair plates to the base plates. Match the engraved arc on the base plate with the front edge of the stare plates.

(NOTE\* only one stair case will have a full circle as the top step)

## Catwalks

1. After removing all pieces from the sheet with a hobby/utility blade, teh detail plates to the sides of the uprights.

2. Slot the uprights into the walkway base plate.

3. Insert 4 of the "F" shaped vanes into the slots on the comb bars and the slot one of these into the front and back of the upright assembly.

4. Slide the Grate piece inbetween the top of the "F" shaped vanes and the bottom of the catwalk deck.
